## 2VOLT CELL BATTERIES

### 2VOLT CELL-FLOODED

Techkraft Industries Private Limited is the leading manufacturer of the best flooded batteries in India. If you are looking for what flooded batteries is the best for solar? look no further...! Standard Flooded batteries Techkraft 2V Flooded Lead Acid Batteries is available from 20Ah to 5000Ah.

Techkraft 2V flooded lead-acid batteries have excellent reserve capacity. Deep-cycle characteristics, and recover from deep discharges quickly. Flooded batteries are robust in construction housed in the time tested Hard Rubber- ebonite containers or in modern high-impact Polypropylene copolymer (PPCP) hermetically heat sealed containers. Flooded batteries manufactured with Tubular positive plates use woven gauntlets to eliminate shedding. Tubular plates ensure good capacity and long cycle life.

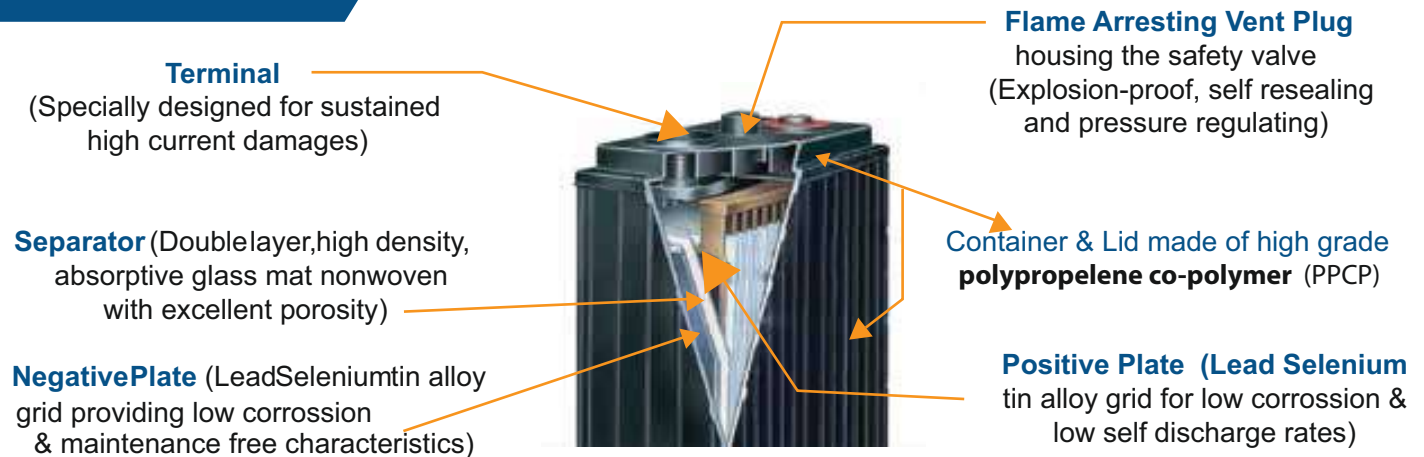

Techkraft 2V Flooded batteries are available are 20Ah to 5000Ah Used as a stationary batteries in power projects, power generation stations, power substations, controls & switchgear, standby, railway signalling & telecommunications, & is a dependable backup power source for critical power projects.
